# LETTER FROM THE PUBLISHER

Eleven years ago the first ever **Relocationlink**® York County hit the streets of York County to welcome new residents. It was an overdue tool needed to aid newcomers which was thereafter utilized by human resource departments and our endorsing partners. Over a decade ago, our company, Genesis Publishing LLC, was doing business in both Maryland and Pennsylvania and I had fallen in love with York County. It was through our experience publishing the York County Convention & Visitors' Bureau Vacation Guide that I gained insight from the local community front lines that the concept of **Relocationlink**® was born. It is no surprise that over ten years ago I found myself moving from Baltimore City to southern York County in search of a community in which to settle down and raise a family.

Fast forward to today and exciting things are still happening with this useful publication. We listened to the comments and requests from those that order our magazine directly and for the 10th anniversary issue last fall, we redesigned the publication to include a new look, new sections and most importantly, a Resource Listing section of key service providers within York County. Our months of intense planning and research efforts have been successful — York County current and potential residents are using our publication more than ever before!

At Genesis Publishing LLC, we believe in a consumer-first business philosophy. Through our sister firm, Genesis Golf Trips, we work with consumers on a daily basis and place customer service first. We are now building upon our existing philosophy so that consumers can expect the same when using Relocationlink York County to help them move into or get acclimated with the area.

I welcome you to come discover York County, Pennsylvania and recapture the quality of life of your childhood dreams. May God bless you with discernment to give you clarity with this very important decision.

Kimberly Carl, Publisher
